$200,000 LOAN.—The Fond du Lac Co. are to make application to the Common Council to-day for the issue to them of the $200,000 bonds voted by the citizens, for the purpose of purchasing iron. They have already bought $50,000 worth, but this loan will enable them to purchase an additional amount so as to get it here in season for early operations in the spring. Otherwise, they may not be able to get it in season to secure the completion of the Road next year, which is very desirable.

The Company is composed of men of character and responsibility, and are able and willing to give ample security for the loan.

Chief Engineer.

The Fond du Lac Railroad Company have secured the services of W. R. SILL, Esq., late Resident Engineer of the Niagara Falls & Canandaigua Road, as Chief Engineer of their Road.

This Company seem determined to prosecute the work on their road with great energy. Now is the time for our citizens to make subscriptions to its capital stock.

NOT SO.—The Monroe *Sentinel* publishes the Free Soil Resolutions of the party in '49, and contends that they are the principles of the party now, and will form the basis of its action in future. Vain hope!

It also publishes the following, which it says was adopted by the Free Soil Convention the following day:

"Resolved, That the Democratic Party did, on yesterday, adopt a Platform of Principles which are, in the main satisfactory to the Free Democracy, and no just cause of division now exists between those professing the same principles; therefore, it is inexpedient to nominate a ticket for State Officers by this Convention."

The Monroe *Sentinel* is mistaken. The above resolution was moved by Mr. Elmore, and rejected. Two sets of resolutions were offered—one by Mr. Randall and his party, and one by ourself, and the minority report of Mr. Randall was rejected, and our resolutions were adopted by a vote of 37 to 2.—Please correct, neighbor.

RENEWED.—Geo. Smith & Co. yesterday, again commenced suit against the editor of the *Wisconsin*, for libelling his Atlanta rags, and laid his damages at $25,000. He has forsaken the U. S. District Court and bro't it before Judge Hubbell. We understand now the reason of the first non-suit.

We understand also that the Bank has again commenced paying out Atlanta money. The *Sentinel* has been at work for sometime trying to bolster up the concern, but it has never yet explained, we believe, why it omitted to publish the *weak spot* in its Charter.

Of course, everybody will do as he pleases about receiving the Atlanta bills. Those who are *hard up* will take them. Farmers who bring produce to market will take them and buy what they want with them, at *certain stores*, but if they take any money home with them, they will step over to the Wisconsin Marine & Fire Insurance Company's office, *before 4 o'clock in the afternoon*, and ask the clerks to give them so nething to carry home with them, that they can *keep over night*, and feel confident that they can pay their debts with it, the next day.

☞ The *News* claims the assertion of the Watertown *Register*, that it shall set its face against dishonesty, to mean that it shall bolt the nomination of A. Hyatt Smith. It assumes that Mr. Smith will get the nomination. The course of the *News* and its hundred friends seems likely to insure such a result. To hear the *News* accuse A. Hyatt Smith of dishonesty! It is a new application of brass.

JANESVILLE FREE PRESS.—We are glad to see that this paper is receiving a large advertising patronage. Its large circulation makes it a most desirable medium for Advertisers. We wonder that our Milwaukee merchants do not generally take advantage of it.

☞ Senator Carey seems to think the editor of the Racine *Advocate* would be a harder Steward than his constituents generally. We shall be inclined to the same opinion if they justify his votes for plundering the State Treasury.

New Formations.

Under this head the N. Y. *Tribune* groups the political prospects in several States.—For instance in Georgia, the union party, which in 1851, supported Cobb, now supports a Webster Whig for Governor, and a majority of Democrats for Congress.

In Missouri, the Bentonians support Whigs to defeat the "Bottoms," when they cannot elect their own men.

In Northern Ohio there is a tendency to union between the Free Soilers, Whigs and Temperance Democrats.

In Alabama there is a fusion of Whigs and Union Democrats.

In Wisconsin, the *Tribune* says:

"The Whig State Convention having adjourned without nominating a ticket, the great mass of liberal, progressive, anti-Rum Whigs will support the ticket presented by the Free Soilers, which is composed of competent, upright liberal advocates of the Maine Law."

Of course, the *Sentinel* will go in for the Hunker ticket, or for a free liquor Whig ticket.

GOING AHEAD.—The Mil. & Miss. R. R. Company have borrowed iron enough of the Mil. & Fond du Lac Co., to lay the rail, this summer, to Stoughton, 16 miles from Madison. It is to be completed to Madison by the 1st of next January.

Mr. Catlin, the new contractor, has invited proposals for the grading, bridging and masonry of this Road from Madison to the crossing of the Wisconsin River—35 miles—to be let on the 22d of August, and for the remainder of the road to the Mississippi—about 70 miles—to be let the first of next September. Also, for 100,000 cross ties, to be delivered any where on the route of the road between Milwaukee and the Wisconsin River. This looks like a determination to put the road through speedily.

☞ We cherish no ill-will against the Madison *Journal*. We have, until the recent trial, given it credit for some moral character and for ordinary decency. But we think we have never received so scurrilous treatment from any press in this State—and there are some making very little pretension to decency—as we have from the *Journal*. For misrepresentation, falsehood and meanness it has equalled the Satanic press of New York. This is our deliberate judgment of that sheet. We hold it henceforth in the same estimate that honorable men regard bandits in a civilized community. Its enmity is as honorable to us as its friendship would be disgraceful.

SPIRITUALISM.—The Fond du Lac *Herald* appears to think Hon. N. P. Talmadge's lectures on the "Spirit Rapping" theory in that city, a batch of inconsistencies. The *Herald* says:

When a man becomes so completely carried away as to believe that the spirits are endowed with power to come to earth and make tangible presents to men, and then finally to come, and by force take a man from his house and carry him across fields, over fences and through marshes with a rapidity which defies pursuit, he has got one step beyond enthusiasm, and it is high time that some friend should say to him in all kindness, stay, thou art beside thyself.

If Mr. Talmadge believes such *stuff* as the above—as the *Herald* insinuates—he has progressed a little farther than any spiritualist with whom we have yet chanced to meet. He must be getting to be a *monomaniac* indeed.

M. & F. R. R. MEETING.—Some two hundred of the citizens of West Bend and vicinity met at the village of West Bend, on the 14th inst., and resolved that they had entire confidence in the present organization of the M. & F. R. R. Co., and that they deemed the construction of said Road of great importance. We shall publish the proceedings of the meeting to-morrow.

FIRE AT ST. LOUIS.—About 3 o'clock, Tuesday morning last, a fire broke out on board the steamer Dr. Franklin, number 2, which communicated to the steamers Bluff City and Highland Mary. The two former burnt to the water's edge and sunk. The latter was partially consumed. The Bluff City was partially loaded for Missouri River.

JANESVILLE HOTEL COMPANY.—The stockholders of this company met on Monday evening last and elected the following Directors:

Messrs. Wm. M. Tallman, H. O. Clark, J. B. Doe, Shubael Smith, and B. F. Pixley.

An adjourned meeting was held on Tuesday evening and Wm. M. Tallman was elected President of the Company; J. B. Doe, Treasurer, and Henry O. Clark, Secretary.

The work upon the walls of the new Hotel is already in progress, and the carpenters have been engaged for some time past in getting ready the lighter parts of the wood work.

REWARD OF MERIT.—The members of the New York Legislature have presented the Clerk with an elegant gold watch and appendages as an expression of their appreciation of his services, and as a token of their personal friendship. The watch has the following inscription:

Presented to
JOHN S. NAFEW,
By his Personal Friends in the New York Assembly, 1853.
Committee:
D. W. Littlejohn. T. P. St. John. M. B. Champlin.

LIBEL SUITS.—Wm. W. Warren, proprietor of the Cincinnati *Pen and Pencil*, has entered libel suits against Calvin W. Starbuck, proprietor of the Cincinnati *Times*, and also against Starbuck and Caleb Clark, proprietors of the Ben Franklin Printing Office. The first suit is for an editorial in the *Times*, in which the damages are laid at $10,000. The second suit is for an advertisement which appeared in the same paper, and which attempts to give a biography of Mr. Warden. The damages claimed in this suit are $15,000.

☞ The Appleton Crescent, of the 23d inst., says a few of the farmers thereabout complain of the rust in their wheat.

☞ The Menominee cession is being rapidly settled by emigrants who have the means of paying for their homes. Success to them.

☞ The Detroit Daily Democrat speaks in high terms of praise of the Southern Michigan Railroad and its excellent management.

☞ Waterbury, Conn., has become a city.

Successful Blow at Common Schools.

Just before the California Legislature adjourned it passed a bill amending the law regulating the appropriation of the common school fund, so as to allow the Catholic schools to receive a *pro rata* of the moneys raised for this purpose. This was done on the recommendation of the Superintendent of common schools, who acted at the advice of the Catholic Bishop.

The bill was rushed through in a hurry, without due examination, and we trust will be repealed at the next session of the Legislature of that State.

The old law provided that the common schools should be free from all denominational and sectarian bias, control and influence whatever; and that no scool-book of a sectarian or denominational character should be introduced or used in any common school instituted under the Act. The amendments also give the State Superintendent the power to decide what books shall be used in the schools! So he will have the liberty to introduce the Catholic catechism into schools if he sees fit, and the people will be forced to pay tax for instructing their children in the tenets of the Catholic religion. This is establishing *Catholicism by law*.

☞ The *First Annual Report of the American Woman's Educational Association*, has been sent us. It is an organization on Miss Catherine E. Beecher's Plan for securing to American women a liberal education, honorable position, and remunerative employment as teachers and physicians, and to qualify them for their duties as guardians of the race. Their purpose is to endow Female Colleges, and to connect with each College a Normal Department for the instruction of Teachers.

We dislike the system of separate schools for boys and girls. It is fundamentally wrong, at war with the social arrangements instituted by God himself and with human nature, and tends to make the one sex boorish, and the other outwardly prudish. Our colleges and seminaries should be equally open to both sexes. Till this equality is effected, we say to this Association, Go ahead. This pamphlet has a beautiful engraving of the Milwaukee Female College.

Milwaukee to a Stranger.

The following is a sketch of Milwaukee and the business connected with it, drawn by a correspondent of the Chicago *Press* who had just visited this city:—

"Milwaukee, from her heights, has an imposing appearance and is calculated to impress a stranger favorably with her position. With the opening of the railroad to the west Milwaukee has begun a new career of improvement, and any one that will now witness the cutting down of immense hills, filling up of hollows, the building of handsome stores and dwellings, must feel assured that her people have thrown off the lethargy under which they seem to have labored, & have gone to work, determined to build up a city which must eventually be one of the handsomest and most agreeable in the West.

"The Lake Shore & M. & M. R. R. Co.'s have the control of a large wharfing privilege on the Menomonee near its junction with the Milwaukee river, and altho' it is now truly a *water* privilege, with abundance of aquatic growth, making it perfectly green, with the capsizing into it of a few of these gravelly hills, it will soon form one of the most desirable depot localities in the West.

"The Mil. & Miss. Railroad is driving a fair business, and, as it extends west, of course it must increase, particularly if it carries freight cheaper to the Lake than our G. & C. R. R. Company does to this place. There are other Railroads being built from Milwaukee—that to La Crosse, is, I presume, of the greatest importance to her interests.

"As we receive so many brick from our sister city, I visited some of the yards where they manufacture the article extensively.—Mr. Cochran manufactures by steam power. A kiln of brick, very beautiful in color, and perfect in every way, had been just opened and was purchased by a citizen at $4,75 per thousand. The peculiar color of these bricks is believed to be caused by the presence in the earth of the sulphuriate of iron, the application of the heat causing the vapor of the sulphur to pass through the earth, giving the light appearance, which, if noticed closely, dark iron specks can be observed in many of the brick after they are baked. They can press over 30,000 in a day at the steam establishment. There is quite a number of other yards, all making a good article by hand and yielding employment to many persons. The greatest of Milwaukee advantages is the water power she possesses.

"In riding through her streets, one cannot but be favorably impressed with Milwaukee by the sight of so many tasteful residences, many of them perched on ground higher than the streets, and embowered in shrubs and trees; while the bright green of the grass and the whiteness of the clover, indicating its growth the adaptibility of the soil, present in the contrast of their colors a very pleasant picture to the eye.

"Among the many fine buildings now being completed, the Roman Catholic Cathedral bears off the palm. It is a beautiful structure, and when completed, with its lofty spire, will be a prominent landmark to those whose way is on the deep. The interior of it will be not only handsome but grand. The windows are filled with stained glass, giving a mild, dreamy, solemn light, well calculated for a building of its character. The organ is an immense concern, and I am informed a fine toned instrument. But what attracts the most attention is the altar, which offers to the connoisseur some most exquisite sculpturing in marble, of a varied greyish appearance. And on the whole I must acknowledge that in no building of the kind that I have ever seen, was I more favorably impressed than I was with the architecture and artistical beauties of this fine edifice.

"I was well pleased with my visit to Milwaukee, and I hope that he who comes and goes from either place will regard each city as neighbors and friends in the great cause of humanity, and commendable progress and enterprise rather than enemies between whom a war of strife or ill-feeling should be maintained."

CORRESPONDENCE—No. 1.

EDITOR FREE DEMOCRAT:—

Having observed the happy union of the British and American flags at the Crystal Palace, and being about to visit the Falls of St. Anthony and other places near the sources of the Mississippi, I desired to include in the route the neighboring possessions of Her Royal Majesty.

We left New York on the morning of Saturday, the 16th inst., by the N. Y. & Erie R. R. to Hornellsville, 342 miles; thence by the Buffalo & N. Y. City R. R. 91 miles,—making 433 miles to Buffalo in the short period of thirteen hours and 45 minutes.

At about 8 o'clock A. M. the rain poured in torrents, and continued to for half the day. It was then that I more than ever realized the convenience of Railroads, while our trusty, law-abiding horse slackened not his speed. He seemed to rejoice in his favorite *aliment*, whose expansive virtues constitute the muscles of his gigantic frame, innervated by his great and powerful brain, the furnace, whose blazing flues, passing around and through the water, bear strong analogy to nerves. He delayed not among the rich daisies of Orange county. He heeded not the rugged ascent of the Shawangunk, from which elevation, descending to the valley of the Deleware by a circuitous cut, he faltered not at the awful precipices overlooking the lovely valley of the Neversink, whose waters here join the Deleware, hastening to the City of Brotherly Love.

Meantime, the windows of the cars being closed, and suitable ventilation being secured by an ingenious arrangement which admitted air and excluded the rain, the passengers adjusted themselves to positions of body and modes of mind, suiting their general habits or present states. Some were entertained by the narratives of a returned Californian; others were in conversation as mutual friends; many gave themselves to repose and sleep. The rain still continuing with great violence, attention was drawn to the apparent obliquity of its descent, forming with the horizon but a small angle. At first we supposed that the wind must be exceedingly strong opposite to our line of progress, yet the erect position of trees and other vegetation opposed such an idea, when we were amused at the philosophical explanation by a lad ten years of age, who, by drawings and gestures demonstrated that the *apparent* obliquity was due to the greater velocity of the cars, as compared with the perpendicular descent of the rain.

Of the interesting scenes, as we ascended the valley of the Susquehanna and crossed the Genesee, it may not be best here to speak.

Under a clear sky, and with happy spirits, in good season we joined our friends in Buffalo, with whom we attended church the following Sabbath.

On Monday we visited Niagara and Lewiston, and sympathized with the citizens in the joy arising from the report of the legislative enactment securing a Ship Canal from Lake Erie to Lake Ontario.

Lewiston, in former years sorely experienced the cruelties of war, and has made comparatively little progress in this age of rising cities. A great change is rapidly approaching. Several lines of steamers are now in daily connection with Lewiston, for Hamilton, Toronto, Kingston and Montreal, as well as for our own cities on Lake Ontario and the St. Lawrence; and in a short time it will be united to the Central, to the N. Y. & Erie, and to the Buffalo & Niagara Railroads, which, crossing the wire suspension bridge at Niagara, through Canada direct to Detroit, Grand Haven and Milwaukee, thence by the Milwaukee & Mississippi Railroad, will form the most economical, expeditious and romantic route from New England to the inexhaustible treasures of the Upper Mississippi.

[Here I lay aside my pen to read a report of the completion and opening of the Canandaigua & Niagara Falls Railroad, and of the decisive steps for the speedy completion of the western portion from Milwaukee to the Mississippi.]

Returning to Niagara, we revisited the bridges, stairs, caves and towers in the vicinity of the Falls, experiencing the pleasurable emotions which probably most persons in like circumstances receive. Though unable adequately to describe these emotions, I am conscious that grandeur and sublimity have fixed their impress on my soul—have become *individualities—durabilities* of my sane nature. For these scenes and their impress I feel thankful to God—the Author of law and Author of intelligences made to be affected by these manifestations.

We left Niagara a few moments before the afflictive descent of that boat, two of whose passengers went rapidly down the awful precipice, while the remaining one lingered to excite, in a wide circle of humanity, emotions of a different order, yet equally referable to laws from the same great Author.

Yours truly,

DAVID P. HOLTON.

Little as First but Mighty at Last.

A TRAVELER through a dusty road
Strewed acorns on the lea,
And one took root and sprouted up,
And grew into a tree.
Love sought its shade at evening time,
To breathe its early vows,
And Age was pleased in heats of noon,
To bask beneath its boughs.
The dormouse loved its dangling twigs,
The birds sweet music bore,
It stood a glory in its place,
A blessing evermore!

A little spring had lost its way
Among the grass and fern;
A passing stranger scooped a well,
Where weary men might turn.
He walled it in, and hung with care
A ladle at the brink;
He thought not of the deed he did,
But judg'd that toil might drink.
He passed again, and lo! the well,
By summers never dried,
Had cooled ten thousand parching tongues
And saved a life beside!

A dreamer dropp'd a random thought,
'Twas wild, and yet was new,
A simple fancy of the brain,
But strong in being true;
It shone upon a genial mind,
And lo! its light became
A lamp of life, a beacon ray,
A monitory flame.
The thought was small, its issue great,
A watch-fire on the hill,
It shed its radiance far adown,
And cheers the valley still!

A nameless man, amid the crowd
That throng'd the daily mart,
Let fall a word of Hope and Love,
Unstudied from the heart.
A whisper on the tumult thrown,
A transitory breath,
It raised a brother from the dust,
It saved a soul from death.
O germ! O fount! O word of love!
O thought at random cast!
Ye were but little at the first,
But mighty at the last!

CHARLES MACKAY.

Chat with the Conductor.

"It's not often a man loses anything by kindness. I know a little matter of that sort saved my life, and perhaps the lives of many others at the same time."

"How was that?" asked we of our friend Rawlings, the model conductor.

"Why, we had an Irishman on this road watching a tunnel. It was warm weather so he used to get in the tunnel to keep cool. I rather think he used to take a little liquor when he was lonesome; any way, he laid down on the track one day to listen for the cars. He fell asleep, and very imprudently got his head cut off by the express train.—Well, there was the last of that Irishman. There was the devil's own row in his shanty when we took the poor fellow up, and got away as soon as we decently could, for you know it's not agreeable to be surrounded with a distracted family when you're neither a doctor nor a preacher.

"Somehow I was always sorry when I passed that place; of course I felt as if—not exactly the same thing—but just as bad might happen to me some day, and then there'd be another row in a family. I told my wife about it, and she sent the family some little things. The widow of the dead Irishman was a Catholic, and, as I was then on a very fast train, I would sometimes take up the old woman on Sunday and carry her to church at Martinsburg. I somehow thought it was a satisfaction to her to go to church, for she had but little chance in this world anyhow. I certainly did not expect to get anything for it in this world, and I expected they had so much scored against me in the other that it wouldn't amount to anything there.

"That was during the summer. One night the next winter it was very cold, and the mountains were covered with snow; we were running to make time, when, on turning a curve, the engineer saw a waving light on the track, and we soon heard some one ahead shouting. I was then out on the platform. The engineer slacked up and stopped the engine, and we got out and went ahead in the dark to see what was the matter. There it was. A large landslide had fallen across the track, near the shanty of that old Irish woman. She had built up a large fire and watched for the train, for the curves were so sharp that we might have been upon the slide before we could see it. So, when we run up, there was the old lady, with her calico cap, swinging the chunk of fire like a revolving light-house, and there were the little Irish carrying brush, like so many little beavers. She had watched all that night in the cold. But for her, in another minute we should have run into a pile of dirt and stone as big as Barnum's Hotel. I should have got a 'pit ticket,' certain, for I was on the platform. What would have become of the passengers and train you can guess as well as I can."

We expressed a hope that the old widow had been properly rewarded.

"The passengers made up about eighty dollars; the company afterwards gave her a shanty rent free, the brakemen and engineers bought her a cow, and she made out very well. But when I handed the money to her that night, she said: 'Gintlemen and ladies, I'm thankful, and may ye niver know the want of what ye give me. But what I did was mostly on account of *him* there. He was kind and thoughtful to the poor and the afflicted, and I'd watched till I froze before hurrum should have come to him, if I could ha helped it."

"Darn the thing, it made me choke right up."

"Passen jars for the Rela-a-y." "Don't forget your umbrella, sir; there might be an explosion, and you'd want it to keep off the cinders." "Let me pass your bandbox, miss." "Take care of your little boy, madam, no insurance on him." "All right! go ahead!"

DEAD BODY FOUND.—We are informed that the body of a young woman has just been discovered in the river back of Doran's new building.—Sheriff Page has just been seen, and will immediately proceed to investigate the matter. The head is said to bear marks of violence.

PIC NIC.—The present term of the First Ward School closes to-morrow. At 11 o'clock, the scholars of the several departments will assemble at the School House, and thence march to Mr. Tweedy's Grove, which he has kindly granted them for the occasion, where they will enjoy a PIC NIC. After which there will be exercises in Declamation by the young men, reading of the paper by the young ladies, colloquies, accompanied with singing, etc.

All who are interested in the progress of the school, will do well to be present.

THE CELESTIALS had a full house again last evening. The taking off the head of the boy was most naturally done. The knife-throwing was an improvement, if possible, on the former evenings. The audience seemed greatly amused at the various performances. They have concluded to remain two more evenings—have changed the programme, and have reduced the admission price one half—to 25 cents. See Advertisement.

DEAFNESS.—Persons afflicted with deafness, and desirous of relief, will do well to call on DR. SMITH, at the U. S. Hotel, without delay, as he will remain in this city but a few days longer. A large number have already consulted him professionally. He comes highly recommended as a scientific and successful Aurist.

☞ A man, woman and child were thrown from a light wagon last evening, near Mr. Hathaway's dwelling-house on Main street, while the horse was under full headway.—The woman was injured severely. The others escaped with slight bruises.

☞ The streets were again alive with Norwegian emigrants, who came up on the *Arctic*, from Chicago, last evening. They mostly left for the interior, on the cars, this morning.

ARRIVED.—The Props. *Forest City* and *Saginaw* arrived at Buffalo, with cargoes of produce, from this port, on the 23d inst.

ARRESTED.—Deputy Sheriffs Beck and Wedemeyer arrested a woman named Mrs. Ryan yesterday, for threatening to set fire to the house of Bridget Burles, of the 3d Ward. Mrs. R. is a notorious drunkard, and was so *discouraged* when the officers found her that they had to employ a drayman to convey her to the police court. When she arrived there, Justice Walworth, seeing her pitiable condition, sent her up to jail to get sober before her examination. The poor degraded woman was so deeply intoxicated that her senses had temporarily departed, and she laid prostrate on her back on the cart, a sorrowful spectacle to behold, and an object of special commiseration.

NEW RYE.—100 bushels of new rye and 6,000 pounds of new rye flour were brought in by the cars night before last. The rye, we believe, was raised in Dane county, and sold for 56 cents per bushel.

NUMBER OF LICENSED LIQUOR DEALERS IN MILWAUKEE.—The whole number of licensed liquor-dealers in this city, is 203, located as follows:—1st Ward, 47; 2d Ward, 47; 3d Ward, 55; 4th Ward, 17; 5th Ward, 37. There is also a large number still selling in open violation of the law.

☞ We are again under obligations to our friend HYSLOP, of the Wisconsin Seed Store, for a beautiful plant—the *May Morn*, of the Verbena Species, in full bloom. Mr. H. has lots of flowers of this species for sale.

NEW BARLEY.—20 bushels of new barley arrived by the cars, from the west, last evening.

☞ The very gentlemanly editor of the Madison Journal excuses himself for publishing the lying statement that we had charged the Judge's friends with hanging about the saloons of Madison to influence the Court, by saying that if it wasn't made in our paper, "it *was* stated so generally in the other Monk's Hall organs," and by asserting that he is "pretty confident he has seen something like" it in our paper.

The "black crow" which the sick man vomited, turns out to be merely "*something as black as a crow.*" That's all! A "confident" man, Mr. Atwood. He also insists that the Senate is the best judge of Hubbell's character. Well, one half of the Senate, on their oath, say they believe him guilty, and part of the other half say that is also their private opinion.

☞ There was a slight shock of an earthquake at Portland, Maine, last Wednesday afternoon.

A GOOD CASE FOR A LAWYER.—One of Fisk's metalic burial cases.

AN INDISPUTABLE FACT.—The Appleton *Crescent* says:

"Place the *Morning News*, and its coterie of admirers with those of the *Argus*, away in some sequestered glen, where their wrangling could never be heard, and the Democracy of Wisconsin would never miss them.—Such is the real sentiment of the Democrats of the "Rural Districts," and unpalatable as it may be, we state it as a fact susceptible of proof.

Anti-Fugitive Slave Law Mass Meeting.

A mass meeting was held at the Stone School House, in North Johnstown, on Friday 12th inst., by the friends of the Fugitive. The more immediate cause of the meeting at this busy season, was the rumor that a female fugitive slave, was skulking about in the vicinity, and that slave hunters were in pursuit—for which reason the friends of humanity, thought it expedient to meet together, not only to express their indignation, but to resolve what course to pursue, should any *person* or *persons, authority* or *authorities*, be so *reckless* as to attempt to take a fugitive slave from *Old Rock*.

On motion, Rev. Merritt Preston, was called to the chair, and Orrin Guernsey, chosen Secretary.

A committee, consisting of Rev. Mr. Hull of Milton, Rev. Mr. Andrus, and Dea. John E. Janes of Johnstown, was appointed to report proceedings.

While the committee were out the meeting was addressed by Mesrs. Baker, of the Janesville *Free Press*, Hull and others.

The Committee reported as follws:

Whereas, We are credibly informed, that a fugitive from slavery, has lately passed through this neighborhood, and we have good reason to believe that slave catchers are, or have been, in pursuit of her, therefore—

1st. Resolved, That our deepest sympathies are enlisted in behalf of the oppressed, who are so unjustly robbed of all their God-given rights.

2d. Resolved, That as christians and friends of humanity, we feel ourselves called upon not to 'bewray the stranger,' but to 'clothe the naked and feed the hungry,' and to 'hide the outcast.'

3d. Resolved, That as citizens of these United States, we are bound to use all our religious moral and civil powers to rid ourselves of American Slavery.

From New Mexico.

Independence, July 20.

The Santa Fe mail arrived to-day. Maj. Gordon of the army, and James W. Webb of Santa Fe, came in as passengers. Everything remained quiet in New Mexico. Col. Sumner was passed at Cotton Wood on his way here.

ANOTHER BRIDGE.—We hear it suggested that a bridge should be built across Fox River, near Bowen's Hotel. Next season a Plank Road will be started thence to Winneconnah, and another to intersect the Manitowoc and Lake Winnebago Plank Road.—It is by no means improbable that the Steven's Point Road, or a branch of it may come into town in that vicinity. In either of the above events, a bridge will be indispensable.—*Appleton Crescent.*

STRONG TALK.—The Montreal Advertiser has the following apostrophe:

Oh! Canada, Canada! what a sink of procrastination dost thou appear among the civilized countries of this beautiful globe!—Thou art a limb of the mother country, but thy ignorance, Lower Canada, is a burning disgrace to her. Thy impoverished fields—thy rats of cattle—the unfed cheeks of the French Canadian population, speak of a rule that should not be submitted to for a day!—Some of you dream of Republicanism.—God help you, when annexation does come—and come it must. You will no doubt then be free from tithes and intolerance, but your utter ignorance will make you the slaves of the Americans.

TORN DOWN AND BURNT UP.—Last Friday night some persons assembled together, and tore down a ball alley in the village of Grafton, Washington Co., piled it up in the street, and setting fire to it, burnt it up.

The alley was kept by a German, and was the resort on Sundays for a large number of persons for amusement.

RECORDS FOUND.—We understand that a large portion of the Register's Records have made their appearance at West Bend. We hear nothing as to where they were found, nor how they reached West Bend. Suspicions seem to be entertained that the remainder are secreted in the "Arcade Building" at this place, as the Register and District Attorney of Washington county are searching the garret of the building to-day (Wednesday.) We do not learn that they discover anything.—*Blade.*

Holloway's Pills, *a Wonderful Remedy for Indigestion Bilious Complaints, and Sick Headaches.*—Thomas Goodman, Esq., of Baker-street, Portman-square, had for many years suffered from indigestion and frequent bilious attacks, and was very seldom free from sick head aches. He had consulted the most eminent physicians and surgeons of the metropolis, but could derive no permanent relief from their remedies; at last, tired out by their ill success, he resorted to the use of Holloway's Pills, which so renovated his system and strengthened his constitution, that he neither suffers from bile, indigestion, or headache, but enjoys the best of health. jy27-d1w

Professor Alex. C. Barry's Tricopherous, or Medicated Compound, for beautifying, improving and preserving the hair, curing cuts, bruises, burns, stings, rheumatism, and all irritations of the skin. A preparation, the sale of which amounts to one million of bottles annually, would seem to need no advertisement; but as the thousands who puschase, use, and approve of it, have probably no idea of the enormous extent of the business done by Professor Barry, he gives herewith a plain statement of facts derived from his books, and with them tenders his earnest and hearty thanks to his innumerable patrons.

Professor Barry's accounts of sales for the year 1852, show that during that year about 940,000 bottles of his Tricopherous were disposed of, and that the cash product of this immense sale was nearly $100,000.

This plain, unvarnished tale is a better commentary on the value of the article than anything its inventor could say. If it were not peerless in its effect upon the hair—if it were not invaluable as a household remedy, for cuts, bruises, burns, skin diseases &c.—it would not, of course, be so universally in demand. The wealthy portion of the public would buy it any price, but Professor Barry has reduced it to a figure so low that the pocrest can avail themselves of its benefits.

Sold in large bottles (price 25 cents,) at wholesale and retail, at the manufactory and depot, 137 Broadway, and by the principal merchants and druggists throughout the United States and Canada, Mexico, West Indies, Great Britain, France, &c.

Manufacturer of

LIGHTNING RODS,

MILWAUKEE, WIS.

THE ANNUAL destruction of life and property by thunder storms has for years past given increased interest to the subject of Lightning Rods, and it is important that citizens should avail themselves of this means of protection for life and property.

The value and efficacy of the Lightning Rod does not consist wholly in conducting the Electric bolt from the building after it has leapt from the cloud, although this alone is sufficient to commend it to general use. Its chief value and efficacy consists in its power to prevent such explosions. It operates silently by tapping or drawing off the electric fluid from the advancing thunder cloud and thus by causing it to rise as it rolls past averting the danger. It is essential that the laws which regulate the action of the electric fluid should be duly considered, both in their construction and erection. The Rods I propose to furnish are constructed on true scientific principles. By means of screws connecting the parts together in a brass nut they are rendered as perfect as wire, and never by accident become insulated, as when they are united by hooks.

Their diameter is sufficient to conduct the greatest thunderbolt without fusion. The supports of the rod being furnished with glass insulators, all discharge of the electric fluid laterally into the house or anywhere except the earth is prevented.

It is important in order to reap the full benefit of the Lightning Rod, that they should be erected so as to distribute their points on the top of the building to be protected with due reference to the sphere of their attractive and protective power, which is generally estimated should be horizontally the distance of twice their hight.

Possessing, therefore, all the essential requisites of a truly scientific and safe conducting rod if erected so as to present a sufficient number of points, according to the extent of the building and if properly planted in the earth so as to be in no danger of becoming insulated by drought or dryness of the earth, I feel confident that my rods as well for their cheapness as their excellence, deserve and will receive general patronage.

☞ Orders left with G. W. Mygatt, Architect, Martin's Block, will be promptly attended to.

☞ My Points are entirely different from any heretofore used and the purchaser can have them *tested* whenever he chooses to do so. mar29-d6m

HOLLOWAY'S PILLS!

Extraordinary Cure of loss of Health, Disordered Stomach, Indigestion and Determination of Blood to the Head.

Copy of a Letter from Mr. John Loyd, of Erw-wen, near Harlech, Merionethshire.

To Professor HOLLOWAY,

SIR,—I avail myself of the first opportunity of informing you, that for a very long period I was afflicted with a dangerous giddiness and frequent swimmings in the head, attended by a loss of appetite, disordered stomach, and generally impaired health. Every means had failed to give me any permanent relief, and at length it became so alarming that I was really afraid of going about without an attendant. In this melancholy condition I waited personally upon Mr. Hughes, Chemist, Harlech, for the purpose of consulting him as to what I had better do; he kindly recommended your Pills, I tried them without delay, and after taking them for a short time I am happy to bear testimony to their wonderful efficacy. I am now restored to perfect health, and enabled to resume my usual duties. You are at liberty to publish this letter in any way you may think proper.

I am, Sir, your obedient Servant

Miraculous Cure of Dropsy.

Extract of a Letter from Edward Rowley, Esq., of India Walk, Tobago, dated April 8th, 1852.

To Professor HOLLOWAY,

DEAR SIR—I deem it a duty I owe to you and the public at large to inform you of a most miraculous recovery from that dreadful disease, DROPSY, and which, under God, was effected by your invaluable Pills. I was tapped five times within eight months, and skilfully treated by two medical practitioners, but could not get cured, until I had recourse to your remedy, and notwithstanding all I had undergone, this miraculous medicine cured me in the course of six weeks.

To Professor HOLLOWAY,

Further she desires me to say, that she has witnessed their extraordinary virtues in those complaints incidental to children, particularly in cases of Measles and Scarlatina, having effected positive cures of these diseases with no other remedy.
